### About the course

The objective of this study day is to deliver an informative and educational programme for ultrasound practitioners of all experiences. As the world finds its feet again, Canon Medical Systems is proud to offer free and accredited CPD for the professional healthcare worker with an interest in obstetric and gynae ultrasound. The programme will cover current challenges faced in Obs & Gynae departments including faster diagnoses for gynaecological issues, complex foetal malformations and avoiding litigation.

Please note this event will take place subject to Government guidance: this may mean that the event is postponed at short notice.
