

Environmental Policy

Canon Medical Systems Ltd

Canon Medical Systems UK Ltd vision is to enrich every life we touch. This means we put care at the heart of everything we do. From supporting people and sustainable practices, to investing in communities and innovation, we are shaping a future made for life.

Canon Medical Systems UK Ltd operates under guidelines (including environmental) set out in Corporate Standards of Conduct (CSC) issued by Canon Medical Systems Corporation in Japan. In Keeping with the CSC our aim is to maintain an Environmental Management System (EMS) that meets:

1. Climate change requirements affecting our business including those of interested parties
2. The requirements of ISO14001

The company will meet all its compliance obligations including preventing pollution, meeting all current UK Environmental Legislation related to its business operations and ensuring it meets future legislation when required.

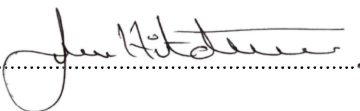

The company will also on a continual improvement basis reduce its impact on the environment by increasing our environmental performance, generating social value and by setting measurable environmental improvement objectives aimed at protecting the environment by:

1. Reduction of our Carbon footprint (committed to an absolute 42% reduction by 2030 against 2022 baseline and Net Carbon Zero by 2045)
2. Reduction and Recycling of waste where possible
3. Ensuring our fleet is made up of 100% EVs by 2030
4. Contributing to the Circular Economy (e.g. by refurbishing ex Customer products for a second life in healthcare when made available through trade-in or buy back)
5. Promoting sustainability in line with our sustainability commitments (e.g. by engaging with our suppliers)
6. Promoting Biodiversity in line with corporate objectives (by planting at least 2000 mangroves per year off the Kenyan Coast)

All Staff will be made aware of our:-

1. Corporate Environmental Values and commitments
2. Environmental Policy
3. The company's EMS and their responsibilities within it.

Mark Hitchman
